Background of Assignment:

Individual(s) will work directly and/or indirectly in support of the process of changing the FAR, DFARS, and PGI to include support of regulation transformation initiatives. Our goal is to provide the acquisition community useful tools for establishing successful contract relationships. Assignments will involve review and analysis of laws, the policies or statutory language that drives major changes, and their impact on the defense acquisition community as well as the civilian agencies (i.e., GSA and NASA). Individual(s) will interface with senior procurement officials from the Department of Defense and OMB (both OFPP and OIRA).

Project Description:

Assignments may include any of the following:

(1) Participate in FAR/DFARS/PGI initiatives from idea generation to publication (time permitting). This could include:

- Working on the team which reviews a proposed regulatory change;
- Participating in the DAR Council deliberations of that rule;

- Attending and participating in the review at the Civilian Agency Acquisition Council and subsequent review by the Office of Management and Budget, as appropriate;
- After publication in the Federal Register, reviewing public comments on the proposed rule and recommending appropriate changes resulting from those comments; and
- Continuing this process until a Final Rule is implemented in the FAR or DFARS.

(2) Review legislation derived from the DoD's Appropriation and Authorization Acts to determine required changes, if any, to be made to the FAR and DFARS.

(3) Review the paperwork burdens imposed on industry by FAR and DFARS regulations and identify initiatives to reduce burdens.

(4) Process class and individual deviations to the FAR and DFARS.

Benefit of the assignment: An opportunity to:

- Make a difference and improve acquisition policies, processes, and procedures.
- Interact with senior officials in the Department and the Federal Government.
- Develop a thorough knowledge of the senior level policymaking and implementation, as well as an opportunity to participate in the rulemaking process (e.g., implement FAR/DFARS changes).
- Promote new and different perspectives into senior procurement policy making, while engaging in a career-broadening experience.

Job Requirements: Individual(s) should:

- Have the ability to work in a team and communicate effectively, both orally and in writing.
- Have initiative and ability to work independently.
- Have strong organizational and analytical abilities.
- Be able to view issues from different perspectives.
- Be able to implement new ideas and processes effectively.
